

PROBLEM DEFINITION

-ARTIFACT #1

PS-04 | AI-Driven Self-Serve Analytical Intelligence Platform

PROBLEM STATEMENT & VISION

CURRENT STATE

Analytics requested via tickets

Long turnaround times

Heavy manual SQL dependency

Inconsistent metric definitions across teams

DESIRED FINAL STATE

Natural-language, self-serve analytics

Governed and explainable outputs

Confidence-aware insights with transparency

Consistent, enterprise-approved metrics

GAPS, DATA, AND SUCCESS METRICS

MECE GAPS

Speed & Access

Reasoning

Consistency

Trust & Governance

DATA REQUIRED

- Fact & dimension tables
- Metadata and schemas
- Business glossary
- Query logs & feedback

SUCCESS MEASUREMENT

- Before vs after comparison
- Faster turnaround
- Fewer escalations
- $p\text{-value} < 0.05 = \text{success}$
